Quality Bread

There is a peculiar something about Barber's Bread that makes it stand out prominently in many homes in this town—it has a tastiness that causes the children and grown ups to marvel at its goodness. The answer is Quality, and that is because the best wheat and other ingredients of the highest nutrition, combined with modern methods of baking go into every loaf. We serve quite a number of the citizens daily, and we can serve you too. Buy a loaf of our bread today and you will appreciate this. Our cakes and pastries are equally good, and prices are reasonable.

CLARESHOLM LOCAL NEWS

The Chautauqua is coming with the biggest and best program ever offered. Look out for the bills.

H. J. Dufly spent the week end at home. He left again on Tuesday for the Soldiers' Hospital in Calgary.

Mrs. McKinney M. L. A. left for Edmonton on Wednesday to attend the Woman's Missionary Society conference.

Morning service will be held at St. John's Church of England on Sunday June 20th, at 11 a.m. Rev. A. Cripps will officiate.

Rev. F. W. Locke returned from Edmonton on Wednesday night. He was reappointed as pastor of the Methodist church here for another year.

There was a very good turnout at the cemetery on Wednesday afternoon to put the place in better order. Much was accomplished in the way of improving appearances.

Don't fail to be at the big dance on June 18th, at the Agricultural College. The ladies of the L. O. D. E. are making the arrangements and you are assured of a good time.

A tea and sale of home cooking will be held at the Parish Hall, on Saturday afternoon, June 12, from 3:30 to 6 o'clock, by the Ladies of St. Vincent's Aid. Everyone welcome.

Special passenger rates will be in force for the Calgary Exhibition from all points in Alberta, Saskatchewan and British Columbia east of Golden on the main line and Nelson on the Crow's Nest.

The annual service of the U. F. A. will be held on Sunday evening, June 20th, being U. F. A. Sunday, at the Odd Fellows Hall, at 7:30 p.m. Rev. F. W. Locke will preach. This service should be attended by as many farmers as possible.

There is much dissatisfaction expressed by many citizens with the hours set by the council for watering gardens. If we may judge by the kicks we have heard a large majority of the citizens who use the water for gardens consider the hours very unreasonable.

Mr. and Mrs. J. McKinney returned from England on Tuesday evening. They report a delightful time in the old land. While there they visited Scotland and Wales as well as many of the beauty spots of England. Mrs. McKinney was amongst the guests invited to dine with Lady Astor.

At the farmers' meeting last Saturday to discuss the hospital question, a resolution was passed providing for the appointment of representatives from the various units of a district embracing Clareasholm, Granum and Staveley, to meet at Granum on the 12th to endeavor to decide on a hospital scheme that might be expected to meet the approval of the people.

For the first time in Canada an aeroplane has this week been employed for lighting express service in getting a moving picture film to its destination on schedule time, and Clareasholm was the hub of this notable event. The famous film "Blind Husbands," due at the Rex Theater here for Friday night, was delayed in arrival at Vancouver and had to be sent to Calgary by special courier in order to reach that city on Friday afternoon. The gas bird was the only thing fast enough to get it from there to Clareasholm on time, and the Universal movie showed the stuff of which successful film corporations are made by not hesitating a moment, although the expense was very heavy. Manager Walker, western manager of the Universal Film Co., came down with Capt. McCall, and personally delivered the film. A film was taken of Capt. McCall and Mr. Walker leaving Calgary for Clareasholm with "Blind Husbands" film on Friday. This film will be shown at the Rex next Friday and Saturday. Incidentally this event will put Clareasholm on the map as it has never been in the news with reach the entire civilized world.

"A NIGHT IN HONOLULU"

"A Night in Honolulu" which comes to the Rex Theater next Monday, June 14, is a pretty musical play of the Island Paradise, by the eminent English author Howard McKent Barnes.

The story is an unique one, full of exciting thrills and fervent heart throbs, and holds the audience in an intense, vice-like grip until the final climax, the big burning, smoking volcano, and everything ends happily for all concerned.

Miss Una Carpenter, the sweet pretty star, plays the part of "Kohala," the dancing girl, and during the course of the play introduces her conception of the famous Hula dance,—not a vulgar display of this instructive and interesting dance, but an artistic and refined interpretation. The Winnipeg papers were quite enthusiastic of this little lady and her dancing during the engagement of "A Night in Honolulu" at the Walker Theater in Winnipeg. The Free Press said "She is without a doubt the best in her own peculiar style that ever graced the Walker stage. She is an artist and a dancer and will long be remembered by Winnipeg theater goers."

The cast of actors is a capable and meritorious one and includes besides Miss Carpenter, Miss June Rose, the musical comedy beauty, last season with "Zeigfeld's Follies," Miss Hazel Baker late of Basco's "The Badinage," Miss Travers Dowling a prominent stock actress, Russell Huffman, Randall Noren, Milton Goodhand and Thos. Keeney.

This company is touring Canada under the direction of the "Trans-Canada Theaters Limited," and comes to Clareasholm highly endorsed and recommended for a good clean entertaining performance, coming direct from the Grand Theater in Calgary to Clareasholm.

The real native Hawaiians, who sing and play their harmonious, entrancing melodies, are an added feature, and during every performance are encored and recalled many times. Mark Twain once said, the "Hawaiian music is the most fascinating in the whole world and once heard is never forgotten."

This play is a guaranteed attraction or money back.

NOTICE

To Whom It May Concern:—

Whereas, on or about the 26th day of August 1916 there was left at the Public Garage conducted by Alfred E. McAllister in Clareasholm in the Province of Alberta, for repair One Four-Cylinder Argo Automobile Number 1491, by one F. R. Schikora; and Whereas certain repairs were executed on said automobile and a storage bill has been incurred in connection with the same, the amount due for such repairs and storage being the sum of \$26.00; and Whereas the said Alfred E. McAllister has caused communication to be made from time to time with the said F. R. Schikora and with certain parties claiming to be assignees or purchasers for value of said automobile and is unable to find any party willing to take delivery thereof; This is to give notice that unless the said automobile is claimed and the said amount of \$26.00 paid by the tenth day of June 1920 the said Alfred E. McAllister will proceed to have the same sold by public auction in front of the premises of the Clareasholm Garage Ltd. in the town of Clareasholm on the 26th day of June 1920 at 2 p.m., the amount realized from such sale to be applied (Firstly) to pay the expenses in connection with this advertisement and the sale, and (Secondly) to satisfy said indebtedness of \$26.00.

Dated at Clareasholm, Alberta, this 15th day of May 1920.
(Sgd.) A. E. McAllister, Clareasholm, Alta.

Improvement of the Home Surroundings At Small Expense

The attraction of home is not exclusively within the four walls of the building. Its surroundings should be agreeable, especially in the summer, when so much of our time is spent in the open.

To make the home and grounds attractive does not require much effort, and the expense is inconsiderable. What can be accomplished at a minimum of expense is shown in the accompanying illustration. The will lingers to do so, accompanied by the

gives the cottage an attractive, inviting and restful appearance.

Improvement of home surroundings can also be accomplished by the expenditure of very little time and money, and the effort will be amply repaid by increased attractiveness. In many portions of Canada, wild shrubs, vines and flowers may be secured, which, under cultivation, quickly improve. For shade trees, the hard maple and beech may be secured, and the cooling effect of these will be appreciated during warm weather.

The present season should be utilized to do so, accompanied by the

Deposits of Sodium Sulphate

Syndicate of English Capitalists To Exploit Deposit Near Calgary

To meet the increasing demand for sodium sulphate for use in the paper mills of eastern Canada, a syndicate of English capitalists interested in the mills have acquired rights on two and a half sections of land situated near the Calgary and Edmonton road of the Canadian Pacific Railway, about 30 miles north of Calgary, Alberta, and will commence excavation of the deposit as soon as machinery can be installed. The deposit is about four feet deep. The plant will be installed in units, each having an output of about 500 tons monthly. The purity of the deposit, it is stated, is 90 per cent. All the capital of the

Banks Tighten Purse Strings

Believed That Effect Will Be To Bring Cost of Living to Sane Level

Reduction in the cost of living, gradual at first, but gathering momentum until such time as normal prices prevail, is the aim of the banks. High wages will have to be made to conform with current conditions, is forecast by Hon. Edward Brown, provincial minister of finance, in a statement of the policy inaugurated recently by the banks of Canada and the United States in tightening the purse strings of both nations.

The new policy, in effect, said Mr. Brown, limits new credit to absolute essentials, and at the same time encourages or invites old clients to reduce their existing credit lines to a minimum. The treasurer declared there was no truth in a rumor that the Bankers' Association had decided to eliminate new credits altogether, and to enforce a 50 per cent reduction in existing loans.

Application of this policy by Winnipeg banks began last Saturday, according to retail merchants. Retail merchants are the first to feel the pinch. They are in the position of having bought stocks at extraordinarily high prices and being confronted at the end of a "backward spring" season with the refusal of banks to extend credit for new stock purchases. The only way they have of raising cash is by conducting sales, and in many cases merchants must be sold at cost or even lower prices.

To add to the retailer's troubles this situation arises at a time when large increases in rent are being effected.

"In the United States," said Mr. Brown, "the decision of the National Association undoubtedly averted a panic. In Canada, I believe, there was no such danger, but such an occurrence in the north would have had a serious reflex action on the whole of the Dominion."

"For a long time," he continued, "we have been pyramiding our financial resources. It was natural that before long the peak must be reached, and when up-building was no longer possible, the crash would have come."

"The immediate effect upon retailers has been to place of accounts further credit to carry them along, they will have to make quick turnover of their resources, their stocks, in order to get the ready money, prices will tumble."

"In New York last week I saw the first evidence of the effect of this policy. One morning the city received an announcement that a 20 per cent reduction in the price of every article in the city would be effected. This was a mere proposal, but a new era of cheapness had been ordered. This was no sales proposition, but a new era of cheapness had been ordered."

"I heard of a large drapery firm in Chicago which, about the same time, announced a reduction of from 10 to 20 per cent on all its stock. This was a mere proposal, but a new era of cheapness had been ordered. This was no sales proposition, but a new era of cheapness had been ordered."

"This movement will spread to Canada. It is bound to come and I believe it will be by their action, the bankers of the country have arrived at the true solution to the high cost of living."—Winnipeg Tribune

The Result Was Surely Worth The Effort.

Company is subsidized. Coal is found conveniently near to the site where the plant is to be installed. It is not anticipated that the new industry will be of a very permanent character. It is intended to meet an immediate demand for sodium sulphate having risen from about \$2.25 a ton before the war, to as high a figure as \$23 and \$24 a ton at the present time.

This abnormal price is due to the practical closing down of certain chemical plants, which produced sodium sulphate as a by-product during the war.

According to the representative of the English syndicate at Calgary, the high price is not likely to be maintained permanently, and when conditions become normal again, the exploitation of the deposit will cease to be commercially profitable. Last year more than 70,000,000 pounds of sodium sulphate were imported into Canada at the average price of \$18.50.

One-half of the total came from the United Kingdom and the other half from the United States.

Deposits of sodium sulphate are not abundant until recently they have been scarce in the prairie provinces. The value is due to the fact that the manufacture of hydro-chloric acid practically ceased during the war.

The cost of each of the units to be installed at the claims north of Calgary will be from \$10,000 to \$15,000. The cost of the plant, including required to operate each unit. After the first has been installed, further excavations will depend largely on the state of the market, which is expected to hold up for some considerable time.

Agricultural Conference

Will Be Attended by Officials From Every Department of Agriculture In Three Provinces

Dates are announced for the agricultural conference under the auspices of the commission of conservation in Winnipeg this summer. The conference which will be attended by officials from every department of agriculture in the prairie provinces. It will open on July 14 and close on July 16.

Subjects to be taken up will deal with the possibilities for conservation of land, water and soil. It is expected that the conference will be a most successful one, and that it will result in the adoption of measures for the conservation of the land, water and soil.

Church Losses Clergymen

During the last church year in the Canadian Methodist total of 81 preachers from the active ministry—31 by resignation and 50 by superannuation—were still held over there were only 24 young men received as candidates for the ministry. That means a net loss to the church of 57 clergymen.

Joys of Power

"Willard," said a visitor to the five-year-old prince of the household, "what ails you? Is it you were the Prince of Wales?"

"I wouldn't let anybody wash my face," said the prince, "I was the ruler of the world."

Fragments of Egyptian leather prepared in this city after 900 B.C. have been found.

Where Camphor Is Found

Formosa Only Place Where Bearing Trees Grow Well

First of a series of bulletins issued by the U.S. National Geographic society on "Where our imports come from" is that dealing with the camphor industry in Formosa, now owned by Japan.

"Formosa holds a practical monopoly in the world's market of this valuable drug," says Alice Ballantine Kirgisoff, writer of a communication to the society on this subject.

"The life of a camphor worker is indeed an adventurous one; he is never safe from the Formosa head hunters. Although a woodsman with an axe never moves except in the company of an armed guard, he is not always the danger of an ambush."

"Tales of the camphor workers recall the days of our pioneer fathers in the times of the tomahawk, the pointed arrow and the scalping knife, but yet if this menace had not existed the camphor forests would have disappeared long ago. Thanks to the head hunters there are yet large tracts of virgin camphor forest in Formosa."

"Camphor trees grow best on moderate well-drained slopes, not over 4,000 feet in elevation, where the sun's rays can reach them."

Nowhere else in the world have these trees attained such bright and girlish as in Formosa. In the past, trees with a basal circumference of from 35 to 40 feet have been cut down, but these have inevitably fallen victims to the woodman's axe. Perhaps in the uncharted forests, where the axe still holds sway, more of these noble specimens still grow unscathed.

At present a camphor tree with a basal circumference of 20 feet is considered a very small specimen.

"In point of value, few trees can rival the camphor. An average tree, say with a basal circumference of 12 feet, will yield about 50 pounds of camphor (approximately 6,000 lbs.) worth about \$500."

Greater Interest Shown in Dairying Throughout the West

(By L. A. Gibson, Dairy Commissioner for Manitoba.)

Much has been accomplished by Manitoba, Saskatchewan and Alberta during the past three years through the organization and co-operation in developing general dairying and particularly the creamery butter industry. Previous to 1918 each province was a separate dairy unit working to different buter standards. Today the inter-provincial spirit is strongly developed and instead of there being Manitoba, Saskatchewan and Alberta creamery butter, all of different types, there is Western Canada Creamery butter, of one type made in the three provinces.

This result has been largely secured through the development of the Inter-provincial Dairy Convention started in January, 1918, and held annually in Winnipeg since then. The last convention, held during the third week in February, 1920, was the most representative and successful of all, showing a number of new types of cows to emphasize the effect of proper dairy breeding. Up to the present time the dairy business has been conducted under the auspices of the Manitoba Dairy Show, who took over the project and developed it. Much has been accomplished through the show and the buildings must be maintained and plans are already under way to secure the erection of these.

The men in the dairy business are showing a very definite interest in securing an annual output of 100,000,000 pounds of creamery butter in the next year, where 2,500,000 pounds are made today. They are facing the question broadly and are disregarding the imaginary boundary lines in their effort to lay the foundation of a great dairy industry for western Canada.

Oil Strike Reported In Northern Alberta

Story That Enormous Pool Of Oil Exists In Peace River Country

The Lethbridge (Alberta) Herald reports that "all the commercial titles, sufficient to practically prove the contention that an enormous pool of oil exists, has been struck in a gas well in northern Alberta. The story is in the rumor stage as yet, but this is believed to be due to the fact that the producing company which got down the well is keeping the news and location of the well a secret for the time being, so as to have the chance to blanket the surrounding country with leases."

"For a long time it has been known that the Peace River Country was underlaid with oil, but the attempts to reach it have only been partially successful. Professor Dowling, Dominion geologist, on his last visit to Lethbridge, reiterated his firm conviction that the development work in the north west was paying big results. This year's exploration promises to be the greatest yet, and if the above rumors are true, there will be a rush which will rival the great development now going on in Texas."

Quite All Right

A number of English officers were sitting in a German restaurant in Cologne having a very good time, people who were very good time. They were struck by a rather lively conversation between the leader of the orchestra and several of the members. All of a sudden the orchestra began to play "Die Wacht am Rhein." Every one rose to his feet, and the English officers, including the English, stood at attention until the last note had been played. The leader of the orchestra then said to the English officers and began the following conversation: "Gentlemen, may I ask you a question?"

"Head!" "Did you recognize the piece we just played?" "Sure." "Do you know that was 'Die Wacht am Rhein'?" "Why, certainly," said one of the Englishmen, raising his voice so as to be heard all over the hall; "but that's all right! Die Wacht am Rhein. That's it!"

Soldier Settlement

Sell 60,000 Acres of Indian Lands to Ex-Soldiers

Practically all the 60,000 acres of Indian reserve lands acquired by the soldier settlement board has been sold to soldier settlers. There are 12,000 acres of land left, and a few farms to be disposed of. The government paid the Indians from \$10 to \$20 an acre, and the soldier settlement board disposed of it at cost.

In the case of Bonnal reserve, 6,500 acres, the purchase price was \$83,594. The board blocked it off into farms and appraised each unit according to its comparative value, the appraised selling price being \$83,594, being \$24 in excess of the amount paid the Indians for the whole reserve or eight cents more per acre.

Canadian Holstein Cattle

Canadian Holstein cattle are highly prized. It will be a special treat to see every man who enlists in the Royal Canadian Mounted Police Force will get his training. He will be a soldier, and another training drop would be established at Ottawa, but, according to officers of the force, Regina will be the only training depot.

The great orange-red butterflies migrate like birds in the fall, flying all the way from Canada to Cuba.

the entries from each province have been numerous. This year there was added the attraction of an "All Canada" competition, which brought entries from every province in Canada and, combined with the other classes, gave the Winnipeg conference the largest exhibit of creamery butter ever shown in Canada. In the "All Canada" competition, the first, second and third prizes were won by Alberta, the fourth and fifth by Quebec and the sixth by Manitoba. The score for the first prize was 98 and for the ninth 97.4 or a difference of six-tenths of a point between the first and sixth, which indicates a very close competition. The highest inter-provincial award was secured by Saskatchewan, with a score of 97.05.

A number of innovations were introduced into the show. A herd of cows with their records of performance was being the attractions. In addition to the best of purebreds from the Manitoba Agricultural College, there was this year set aside a number of purebreds or superior cows to emphasize the effect of proper dairy breeding. Up to the present time the dairy business has been conducted under the auspices of the Manitoba Dairy Show, who took over the project and developed it. Much has been accomplished through the show and the buildings must be maintained and plans are already under way to secure the erection of these.

The men in the dairy business are showing a very definite interest in securing an annual output of 100,000,000 pounds of creamery butter in the next year, where 2,500,000 pounds are made today. They are facing the question broadly and are disregarding the imaginary boundary lines in their effort to lay the foundation of a great dairy industry for western Canada.

Land Boom in Alberta

Dominion Land Office at Calgary Has Busy Season

Notable increases are shown over the corresponding month of last year in the returns of the Dominion Land Office at Calgary, Alberta, for the month of April. The net increase being \$50,704.08, with \$23,042.00 for 42 applicants for April, 1919, with 77 applicants, the fee amounted to \$24,055.25. In soldier grants also, more than 25 for April as against nine for the corresponding month of last year. In homesteads 19 were granted last month as against 16 in April last year.

In April, 1919, no quartz or placer mining claims were granted, but for April of this year 26 were applied for, as a result of the miniature gold rush at Snake Creek early in April. Some came in on the last day of March, and others came in after the first day of April.

As for petroleum and natural gas applications, amounted this year to \$23,042.00 for 42 applicants for April, 1919, with 77 applicants, the fee amounted to \$24,055.25. In soldier grants also, more than 25 for April as against nine for the corresponding month of last year. In homesteads 19 were granted last month as against 16 in April last year.

Fire Loss Increased

Four Months Total This Year Is the Sum of \$9,556,125

If fire continue to do damage as they have during the past four months Canada's fire loss in 1920 will greatly exceed the loss last year, and may reach the figure for the year 1918, says the Monetary Times. The four months' total this year is \$9,556,125 compared with \$8,241,200 for the same period in 1919.

The Monetary Times' estimate of Canada's fire losses during April, 1920 was \$2,229,580, compared with \$1,089,070 in April, 1919, and \$1,795,200 in March, 1920.

A Difference in Time

In reply to an observation that he and his son and namesake resembled each other greatly, old Bill Silvers said: "The main difference is, my son, young Bill is, when I put in a day at work I don't feel like running around at night, and when young Bill puts in a night running 'round he don't feel like working next day."

Half the Population of Great Britain

was sent twice a week to the movies in 1919.

The beautiful musical play of Old Hawaii
by Howard McKent Barnes

A NIGHT IN HONOLULU

Not a Moving Picture

A Magnificent Senic and Electric Production

A Troupe of real native Hawaiians singing and playing their fascinating melodies, that entrancing music that lingers in your memory and haunts your soul.

Miss Una Carpenter in her artistic conception of the native Hawaiian dances.

The Winnipeg Free Press says of her dancing: "The best in her own peculiar style that ever came to Winnipeg. She is both an artist and a dancer and will long be remembered by Winnipeg theatergoers"

Columbia Grafonolas

Grafonolas are the best gifts

In our shop you can always find a Columbia Grafonola of just the right artistic design to harmonize with a happy couple's furniture in their new-made nest.

Give them a Columbia Grafonola and pass along the word to their other friends and relatives. They'll be glad to make gifts of Columbia Records.

They will want some Columbia Records too. Here are some suggestions:

Dardanella and If You Could Care (Waltz) from "As You Were" Saxha Jacobson, Violin Solo. A2912 10-inch \$1.00	Lazy Mississippi, Campbell and Burr, Terror Duet, and Rose of Virginia, Henry Burr, Tenor Solo. A2909 10-inch \$1.00
The Walt of You and I Know a Lovely Garden, Louis Graveure A2907 10-inch \$1.00	Milade Madley--Overture and Mlle. Madley, Madley-- Overture. Philharmonic Orchestra of New York. A2918 12-inch \$1.85
Baby Mine and Mommy's Song, Lucy Gates. A2911 10-inch \$1.00	Emma's Cuckoo Song, and Emma's Lullaby, Frank Kamplian, Yodler. A2904 10-inch \$1.00

New Columbia Records are out the 10th and 20th of the month

O. L. REINECKE

FRIDAY, JUNE 11, 1920

The paper wholesalers have this week notified us of another 25 per cent raise in the wholesale price of papers used in the printing trade. In addition to that several important lines are now off the market and cannot be bought at any price. In this list are included book papers, poster paper, wedding invitations, and funeral announcement cards. The Review-Advertiser is fortunate in having on hand a fair stock of most of the staple lines at present affected. That the high price of paper is simply a case of profiteering by the manufacturers is clearly shown by the market reports. All paper making concerns are showing big dividends and the stock shares in all of them are quoted at away above par, some of them as much as 200 per cent above.

The prize list for the Calgary Exhibition may be obtained by writing to E.L. Richardson, Manager, Calgary. The fair dates this year are June 26th to July 3rd and entries close on June 14. Over \$2,000 has been added to the prize list for the live stock department for this year, making the total amount offered for all departments now \$34,000.

Built in Canada by Skilled Canadian Workers and Canadian Capital

GRAY-DORT

The Motor Car Buy of the Year

EVERYWHERE men are hailing the Gray-Dort as the big value of the year. The newest advances in automotive engineering and old-fashioned VALUE are combined in this car.

Go over this car, feature by feature, and compare it with other light cars. Note the husky axle, the heavy crankshaft, the long springs, the big motor; the roomy tonneau; deep seats, French-pleated upholstery, hand-tailored Rayette top, the side curtains opening with the doors; the graceful, clean contour of the Gray-Dort is aided by a new hood, with many long, narrow louvres and is completed by the wonderful Gray-Dort finish which we have been 60 years perfecting.

Our dealers tell us that the shortage of Gray-Dorts in their showrooms is becoming serious. See the Gray-Dort at once.

The Gray-Dort 5-passenger touring car is \$1465 f.o.b. Chatham, war tax extra. The 2-passenger roadster is the same. The Gray-Dort Special, with extra equipment and beautifully finished, is \$1500 extra on the standard. The Gray-Dort Ace, the most beautiful light car of today, is \$225 extra on the standard.

GRAY-DORT MOTORS, LIMITED - Chatham, Ontario.

Claresholm Local News

Amos Ross of Calgary was a visitor in town on Friday.

Chas. Romain spent several days this week in Calgary attending the convention of the Knights of Pythias.

The worst dust storm within the recollection of the oldest inhabitant, visited this part of Alberta on Tuesday. The storm did considerable damage to crops.

In connection with the Royal Sanitary Institute, an examination for sanitary inspectors will be held on Saturday, June 19th, at 9 a.m. in the Normal School at Calgary.

We are sorry to have to report the death of the little daughter of Mr. and Mrs. Young. She was sick but a short time of pneumonia. The funeral took place on Friday.

When you take hail insurance you need a reliable company. Fraser & Peck have the two strongest companies doing business in Alberta. If you are short of cash your note will be accepted. You need the protection.

Calgary fair is fortunate this year in being able to secure Locklear, possibly the most daring acrobatic performer in the world. He does acrobatic stunts all over an aeroplane and finishes his act by climbing from one machine to another in full flight in mid-air. This is positively the greatest attraction that can be obtained for any exhibition.

The following dispatch comes from Montreal under date of June 9th: At McGill convocation, the medical faculty conferred the degree of master of science on James Willard McKinney, B.Sc., Claresholm, Alberta, a son of Mrs. Louise McKinney, M.L.A. He has done valuable work in connection with determining the composition of shale, and held a research fellowship at McGill last year.

"Yes, I'll make it. The truck runs smoothly and dependably because I use nothing but Imperial Polarine for lubrication and Imperial Premier gasoline for fuel. That's the noticeable combination which keeps the mail on time."

Accurate Thorough Lubrication

IMPERIAL Polarine gives thorough lubrication and is every operating condition. Cars and trucks give longer, cheaper service when lubricated with Imperial Polarine.

Imperial Polarine will not break up or run thin under continued operation. It reduces friction to a minimum by maintaining a coating of oil on every wearing surface. It seals all the power behind the piston by establishing a perfect piston-to-cylinder seal.

Learn which of the three grades described below is best suited for your car from the Imperial Polarine Chart of Recommendations, which is on display wherever Imperial Polarine is sold.

Sold in one-gallon and four-gallon sealed cans, half-barrels and barrels, also in 12½-gallon steel kegs, by dealers everywhere.

NOTICE OF ESTRAY ANIMAL

Claresholm—On the premises of Neil Gray, N. W. quarter 32-10-29, W. 4th, one red heifer three years old branded 94 right ribs. Came to above premises about Dec. 20, 1919.
(May 19-pd.) Neil Gray.

EXPORTS OF PURE-BRED STOCK

The breeding of purebred stock in the West may be considered a comparatively new industry, for it is not long since the days when quality was the idea uppermost in a rancher's mind, and quality is his animal received very little consideration. This was in the epoch of the huge ranches, but with settlement and the introduction of other and more intensive methods of agricultural stock raising, much attention has been paid to the quality of the animal raised with the result that the stock of the western provinces is becoming known wherever interest is taken in the maintenance of herds of prime quality. In the western provinces breeders have always had the active co-operation of the various governments who by an aggressive campaign of propaganda, the maintenance and work of experimental farms and intelligent distribution of high-grade animals in the stock raising districts have striven to elevate the quality of the animal bred and eliminate those of low grade.

The results of this intelligent co-operation are becoming more evident every day. Purebred stock farms are now as common throughout the West as were the ranches of the old days, and the demand for their product is increasing and covering a large area. Each year many thousands are purchased by American farmers at the annual sales throughout the west and huge prices realized. Australians are enthusiastic over Canadian purebred stock. Recently a herd of Holsteins were shipped to the Antipodes as an experiment, and no great was the demand that they could have been sold several times over.

(1) Some fine cattle graze on Alberta Prairies.
(2) The children help to rear the stock on the Prairies.
The outlook for the introduction, as the government does not permit the entry of live cattle into the country. British Columbia has also supplied the Hawaiian Islands with its first purebred stock when, a short while ago, a consignment of Holsteins and Jerseys went to the stockmen of Kahalo, Island of Maui. A clear realization of the importance of high quality, have in fact, with intelligent breeding and the active co-operation of the Dominion and Provincial Governments, raised the Canadian purebred standard, until it has through its own excellence created the general demand which exists at present.
